crossroads@memorialhiway.com

You are invited to contribute a roadside memorial via snail mail. Tell us about the memorial, and about the person for whom the memorial is for, if you knew them. We have asked for some genealogical information; please include it if you know it. We are hoping that our book will play an important role within the genealogy community. People submitting will remain anonymous.

If you are sending us a picture of a memorial that you have seen along your travels, but don't know any further info on, that is great too.

Please remember to send location information, i.e. nearest cross street(s) if possible so that in our up and coming book, we can map this location.
